ABOUT ME

Skilled in Node.js, Express.js, and MongoDB, developing scalable RESTful APIs and full-stack applications. Proficient in backend logic, authentication, and database management using MongoDB. Experienced in building secure, high-performance web applications with middleware, routing, and error handling. Strong debugging and optimization skills to enhance performance and reliability. Passionate about writing clean, maintainable code.

EDUCATION

- **Bhagwan Mahavir University**
  Bachelor of Computer Application

PROJECT

- **Blogify:**
  - Created a blogging platform API with Node.js and Express.js, allowing users to create, edit, and delete blog posts.

- **AuthFlow:**
  - Emphasizes the seamless flow of authentication and data management.
